DETAILED ACTION

Election/Restrictions

1. Newly submitted **claims 45-49** are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Invention III (**claims 45-49**) is a combination of (a) Invention I (**claims 1-23**), drawn to a respiratory delivery system fully capable of delivering both powdered and liquid medicaments and (b) a liquid medicament container. Therefore, Inventions III and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because it does not require the ejection actuator that is fully capable of discharging powdered medication. The subcombination has separate utility such as respiratory delivery apparatus for a dry powder inhaler.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, **claims 45-49** are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Amendment

2. The amendment filed on March 2, 2005 has been entered. Examiner acknowledges that **claims 1, 8-10, 14 and 23** have been amended, **claims 24-36** have been canceled, **claims 7 and 45-49** have been withdrawn and **claims 37-49** have been added. Subsequently, **claims 1-6, 8-23 and 37-44** are under consideration, while **claims 7 and 45-49** have been withdrawn from further consideration.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. **Claims 1-6, 8-23 and 37-44** are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. New matter may not be incorporated by an amendment. In this case, as recited in **claims 1 and 37**, the phrase "to achieve a ***substantially constant airflow rate*** through said passage that is substantially independent of the magnitude of an inhalation" is considered new matter since the disclosure of the instant application as originally filed lacks adequate support for this claim limitation, and as a result, it is not apparent that Applicant possessed the newly claimed invention at the time the application was filed.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

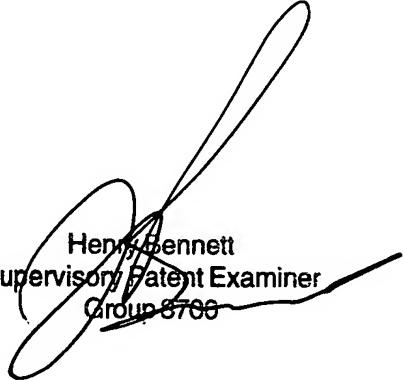

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
